Cisco Anywhere Client Cisco Anyconnect VPN Client is a popular simple and secure endpoint.. The need for special licensing (Plus) pretty much mandates that any body who has to connect to more than one VPN endpoint will most likely default to the stand-alone AnyConnect client.. Learn about UCSD's expanded virtual private network (VPN) service, which lets you create protected connections to UCSD's network from remote locations.. Cisco AnyConnect is cross-platform It can be used on Microsoft, Linux, and Mac operating systems.. If you are looking to complicate your ability to unify connections to Cisco-backed VPNs, look no further as Cisco doesn't disappoint with the new UWP client.
